

**GARRET, German Shepherd Dog  
Handler: Elizabeth Kreitler, VA TF1  
FEMA Certified November 1997**

Garret was most focused and happy when he was working. He worked wilderness searches but his true calling was USAR. Pushy in anticipation of work and a little too vocal during his down stay, Garret released all his energy into searching for victims. He was a special companion who truly loved his “work”.

With his drive for the work and his long legs, covering a rubble pile was a breeze for him. During training a piece of rebar went through the webbing between two toes. Garret ignored the rebar imbedded in his paw and pushed for more play and another “find”.
