FEDERAL EMERGENCY MANAGEMENT AGENCY

# NATIONAL URBAN SEARCH AND RESCUE RESPONSE SYSTEM

A Component of the National Response Framework  
Emergency Support Function # 9

## GENERAL ADMINISTRATIVE & TRAINING REQUIREMENTS

## **FEMA National US&R Response System**

### **Task Force Position Descriptions**

#### **General Administrative and Training Requirements**

The primary mission of the DHS/FEMA National US&R Response System is the coordination, development, and maintenance of the Federal effort to provide resources to locate, extricate, and provide immediate medical treatment to victims trapped in collapsed structures, as well as to conduct other life-saving operations.

The Program Manager of each Task Force is responsible for the selection, training, equipping, mobilization, and deployment of the Task Force to respond to those situations as outlined in the National Response Framework. Those selected to become members of the DHS/FEMA National US&R Response System must be cognizant of the fact that the work performed requires the member to meet all physical requirements as determined by the Sponsoring Agency, to be available to mobilize on short notice, and to be capable of functioning for long hours in a physically challenging and austere environment often under adverse and arduous conditions.

To assist the Program Manager in meeting the objectives demonstrated above, the DHS/FEMA National US&R Response System has developed Position Descriptions and General Requirements (Training and Administrative) that apply to each member. Position Task Books are under development. The Program Manager will ensure that each of these guiding documents is used to maintain the operational capability of the Task Force members.

#### **General Training Requirements:**

Each member will:

1. Complete Critical Incident Stress awareness training.
2. Complete IS-100 and IS-200 (or their equivalent), IS-700 and IS-800B on-line courses.
3. Complete DHS/FEMA National US&R Response System Orientation course as part of the Task Force orientation
4. Complete initial training at the First Responder Operations Level for Hazardous Materials (OSHA 29 CFR, 1910.120).
  - a. Complete annual refresher training as required for First Responder Operations Level for Hazardous Materials (OSHA 29 CFR, 1910.120).
5. Be currently certified in Cardiopulmonary Resuscitation (Task force members currently licensed or certified as EMT (all levels) and licensed Board Certified Emergency Physicians inherently meet this requirement).
