

ALISATION STAR-TRIP v Dalclar, "HARLOW"

Handler: Gail McCarthy, MA TF1

FEMA Certified Type II, MASSARDF-Certified Wilderness Air Scent, CD, WAC, VC, AD, CGC

Harlow was a tremendously reliable search dog who loved to search, yet was controllable with the whispered word. She was always eager to please, excited to work and never quit trying to work out a search-problem. One of Harlow's most notable searches was the Worcester Cold Storage Warehouse Fire in December 1999. She was extremely task-oriented with a fanatical ball-drive. I know she gave watch over all the SAR dogs that worked on 9-11 and helped lead innocent souls on their way to heaven that terrible day.

Harlow was diagnosed with cardiomyopathy in October 2000 and retired from search and rescue.
