

LUCY, Border Collie

Handler: Lynne Engelbert, CA TF3

FEMA Certified: Type I, 1993 – 2004

CA OES Certified: Human Remains Detection 1999

Those who knew Lucy remember a dog that loved disaster search more than anything. Her second love was HRD work, and she excelled in both. She worked the OKC bombing, the WTC after 9-11, the Shuttle Columbia Recovery and numerous HRD searches, finding two murder victims and one drowning victim. She helped put one bad guy away forever.

Lucy had no “off” button and was hard to live with . . . I can imagine the ruckus she is causing on the Rainbow Bridge. I loved my search partner dearly and her death has left a huge hole in my heart. I miss you girl!
