

Thor, German Shepherd Dog
Handler: Tony Zintsmaster, IN TF1
FEMA Certified: 1999

Our boy Thor has left this existence to work ahead of us again. He will play with his lucky victims till we catch up to them and join in the celebration. It is easy to consider the work that he has done from located bodies and crime scenes to the live find of a girl whose wedding we attended this year. And the way he truly raised “the bar” on search work in our area.

More than anything else Thor was our friend and my partner.

When asked if there were dogs in heaven a person responded “I know there are, otherwise it wouldn’t be heaven”.
