

Handler: Greg Gonzales
Canine: Toni
Certifications: FEMA Type I
One of first dogs to certify Type I in the Nation.

Greg and Toni were a beautiful team, a golden and her friend/master/partner. We all aspired to have a "Toni" of our own one day. They laid down mighty footsteps to learn from and fill in.

Greg gave freely of his time to work with any handler who needed guidance and training. He spent weeknights, weekends, holidays and vacation time giving others the knowledge he had acquired over his many years of training in wilderness and disaster.

We lost a great handler, trainer and friend who I believe waited for his faithful golden until her time was over on this earth, and together they will climb rubble piles through time.
